

## Aquaglide Multisport LE Sails into BCF

One of Australia's fastest growing recreational retail chains, Boating Camping Fishing (BCF), has become a leading stockist for the popular and versatile Aquaglide Multisport LE inflatable watercraft.

The Multisport LE is one of the flagship models from the Aquaglide range of inflatable products distributed exclusively in Australia by marine safety and inflatable product specialists, RFD Australia.

Touted as the largest selling sailcraft in the world, the Multisport LE is a four in one inflatable sailcraft that caters to the whole family of water enthusiasts.

The Aquaglide Multisport combines the fun of sailing, windsurfing, kayaking and ski tubing all in one design and fits perfectly with the BCF product line-up.

BCF is the outdoor enthusiasts' one stop recreation shop that, as its name suggests, caters for all things Boating, Camping and Fishing. With 32 big locations in NSW, Qld, NT and WA, BCF follows a straightforward philosophy of selling a broad range of quality brands, at competitive and fair prices with all the advice the customers need. This retail promise sits well with RFD's Managing Director Mark Barker.

"BCF has a strong retail presence across Australia and we know the Multisport LE is a perfect fit with their local markets," said Mark Barker.

“The Multisport LE is perfect for families because it provides a user friendly platform to enjoy four different water sports. It is durable, lightweight and compact to carry and the price is very affordable at only a fraction of the cost of any sailboat, windsurfer or kayak.”

In just minutes, the Multisport LE can be converted from a windsurfer to a sit-down sailboat. Or, if the breeze isn't blowing, the sail and mast can be dismantled and the optional kayak kit can be added to turn the Multisport LE into a paddle sport. Need speed? Then the Multisport hull morphs into a high performance towable.

The key piece of equipment in the Multisport LE is the hull platform made from strong a PVC inflatable bladder encased in a durable rip-stop denier nylon cover. The complete rig includes sail, mast and boom plus 2 keels, sailboat rudder and lines along with a repair kit and instruction manual. The optional Kayak Kit including seat and paddles sold separately.

BCF is set to stock the award-winning Multisport LE right across their Australia-wide network of retail outlets. Plans to stock more products from the Aquaglide range are under consideration.

RFD is a world leading manufacturer of marine safety products and inflatable watercraft. Beginning in 1920, RFD is primarily involved in the supply, service and project management of marine, fire, life support and gas control equipment. RFD also distributes a range of brands including Aquapro inflatable boats, Plastimo boating equipment and Aquaglide water sport products.
