

Streaker's 4.85 Cuddy Gets The Walk-Thru Treatment

The most compact and one of the most popular fishing boat models in the Streaker Boats' range has received a complete make over with the 4.85 Cuddy now sporting a walk-through cabin and fresh graphics.

Following the success of the recently launched 5.02 Cuddy Walk-Thru, the new 4.85 Cuddy Walk Thru now offers the convenience and safety of a forward walk-through hatch plus all the practical extras expected from a Streaker Boats fishing package.

The 4.85 metre vessel provides the perfect platform for first-time boaters or the experienced angler that enjoys weekend boating. The compact nature of the 4.85 Cuddy Walk-Thru means that it is easily towed, easily handled and capable of venturing through many waterways that larger boats cannot explore.

The standout feature of the new 4.85 Cuddy Walk-Thru is the newly designed forward hatch and windscreen that allows safe, easy and stable access through the helm bulkhead to the anchor locker. Opening up more deck space, the walk-through feature

offers greater safety when anchoring in rough weather and allows more room to move when battling a fish round the hull.

“Our popular 4.85 Cuddy is now more versatile than ever before,” said Streaker Boats Co-Director, Leon Savage.

“By developing a walk-through hatch on this compact hull we have created a lot more useable deck space to work from, plus providing more safety up forward when accessing the anchor. The 4.85 Cuddy Walk-Thru is the ideal boat for first timers that want a compact fishing platform that is just so simple to own and maintain.”

A look onboard the new 4.85 Cuddy Walk-Thru reveals an uncluttered fishing cockpit and practical helm layout. Using every ounce of space available, the Streaker design team ensured this package has all the fishing essentials including Lowrance sounder, bimini cover, removable bait board, stainless steel flush mounted rod holders and corner bait bins.

Powering the new 4.85 Cuddy Walk-Thru is a breeze with Yamaha’s class leading F60 4-stroke outboard recommended for the job. This powerful outboard delivers smooth, quiet and economical operation plus an outstanding cruising range from the upgraded 75 litre underfloor fuel tank.

Another benefit of the new 4.85 Cuddy Walk-Thru is that the hull length is over the specified 4.8m lifejacket regulation boat length which stipulates that all occupants in a powered vessel of 4.8m or under must wear a PFD1 lifejacket when underway.

This latest release comes with all the usual Streaker Boats’ extras including all the essential safety equipment. Versatile enough for a first-time small boating family and equipped ready for a dedicated weekend of angling, the new 4.85 Cuddy Walk-Thru delivers all the extras of a larger boat on a user friendly compact hull platform.

Streaker Boats is a leading Melbourne marine retailer, being authorised dealers for Quintrex, Streaker, Larson, Yamaha outboards and Wave Runners. The company is one of the very few Yamaha dealers in Australia that has been awarded the status of Platinum dealer.
