

Webbe Marine Goes Live With New Web Site

Australia's leading power catamaran specialist, Webbe Marine, has gone live with a completely new and vibrant internet site. The new Webbe Marine site reflects some important changes at Webbe Marine and also supports customers who want to begin the boat buying or selling process on line.

Customers who log on to www.webbemarine.com.au will find all the latest images and photos of the Australian built Sailfish aluminium catamarans and Glacier Bay fibreglass catamarans, along with detailed information on Honda outboards.

There is also a comprehensive listing of used boats and outboards, which is routinely updated to present the latest and current data for boat buyers.

One of the key new features of the Webbe Marine site is the new 'Sell Your Boat' section.

"We never seem to be able to get sufficient quality used boats in stock," said Gavan Daly, co-principal of Webbe Marine.

“We are happy to pay cash for quality second hand boats but we never seem to have enough good stock.”

“Now boaters can simply complete the ‘Sell Your Boat’ form on-line and send us a selection of photos of their boat via email to get the ball rolling. By starting the process on line, it has to be the most time efficient and convenient way to turn your used boat into cash.”

Beyond comprehensive product information on Sailfish and Honda, the Webbe Marine site has a stack of fishing and boating photos in the gallery section. These have largely been supplied by happy Webbe Marine customers keen to share with other boaters their great times on the water.

Webbe Marine is a specialist Sydney marine retailer, being the authorised agent for the Sailfish and Glacier Bay brand of boats. The company also proudly represents Honda outboards.
