

## Melbourne's BL Marine Appointed Stacer Dealer

---

Long established and respected Melbourne marine dealership, BL Marine, has been appointed as a fully authorised Stacer dealer. In doing so, BL Marine becomes Melbourne's only dealer to offer Stacer aluminium boats with Australia's leading brand of outboards, Yamaha.

Located in Melbourne's northern suburbs, BL Marine has a vast sales area catering to Melbourne's burgeoning northern residential corridor.

As a fully-fledged, full line Stacer dealer, the entire range of 2009 Stacer models is now available from BL Marine, with every model available fitted with a BL Marine dealer rigged Yamaha outboard engine on the transom.

"We're elated to have won the right to stock and sell the Stacer brand," said Craig O'Donnell, principal of BL Marine.

"Stacer is a top quality brand with a very rich heritage, so it is a wonderful match with Yamaha power on the transom."

"One of the added bonuses of selling the Yamaha brand alongside Stacer is that our customers have a complete choice of outboard technology. When buying Stacer, customers can choose from the Yamaha 2-stroke or 4-stroke

outboard models to power their boat. And there are also the high tech, low emission Yamaha VMAX engines to choose from for the bigger Stacers.”

Leading the way in Australian aluminium boat manufacturing, the Queensland built Stacer brand has a huge range of boats designed to cater for every form of boating imaginable. From a simple car dinghy through to dedicated offshore fishing and cruising boats, Stacer has a model to suit.

“Our appointment as a Stacer dealer is fabulous news for BL Marine and our customers, right before the Melbourne Boat Show,” Craig O’Donnell said.

The Stacer line up has a host of impressive and unique features. Features such as the EVO Series II hull design and their fully featured packages all work to deliver a superior product.

Yamaha outboards are available through an Australia-wide network of authorised Yamaha outboard dealers. All Yamaha 4-stroke outboards are supported with a full 4-year manufacturer’s warranty and all 2-stroke outboards are backed by a 3-year warranty – standard conditions apply.
