

YANMAR

Andy Wright

Yanmar Saves Me 50,000 litres of Fuel A Year

Dive operator Andy Wright had the ideal dive charter boat but his tired old 8 vee 4 cycle engines were expensive to run, burning up 650 litres of diesel every day.

"We go to sea 300 days a year with divers; in a year all 10,000 of them. I simply can't afford to have any reliability issues with the Calypso charter operation, let alone engines with high operating costs.

After re-powering Calypso II with a pair of Yanmar 6HYM-ETE engines, my fuel costs have been slashed from 80 litres per hour per engine to 60 litres per hour – that's a saving of 25% or 50,000 litres of diesel a year.

I love the Yanmar brand. It has a great name and I like the fact the 6HYM series is a purpose built marine engine, not a derivative of a truck engine.

Yanmar is the best brand, the best configuration and for my application, the cheapest. My Yanmars just keep running and running. You can't kill em!"

Yanmar 6HY series
412 - 700 mhp (303 - 515 kW)

- Low Noise, Low Vibration & typical Yanmar reliability
- 500hr service intervals
- Mechanical Fuel System for simplicity and reliability
- Low fuel costs and low emissions
- Meets IMO regulations
- Sold and serviced by Australia's largest selling brand of diesel engine
