

Dependable Diesel Power On The Land

YANMAR
diesel 

Yanmar provides reliable diesel power to many of Australia's leading OEM companies operating in agriculture, electrical power, pumping and a multitude of other work applications.

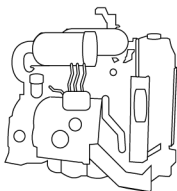

TF Series 5 - 23 hp

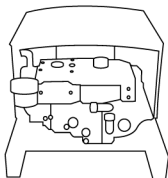

L Series 4 - 10 hp

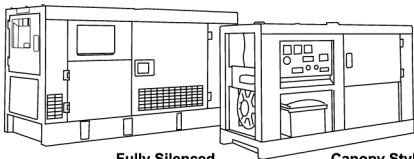

When you need to move water, you can rely on Yanmar diesel power to do it. Yanmar has Australia's most comprehensive range of diesel engines, single cylinder air cooled engines for direct coupling, heavy duty single cylinder water cooled engines, multi-cylinder water cooled engines and purpose built 1500RPM generators for running submersible pumps and center pivot irrigators.

TNE Series 11.5 - 113 hp
