

The Powerful Gem

New 4JH4-HTE Mechanical Control
(110MHP / 80.9kW)

Less Weight More Power

The new four-cylinder Yanmar 4JH4-HTE is even lighter than its predecessor, yet boasts an extra 10% of power. Meeting current emissions requirements, this clean, quiet, smooth and compact diesel engine has increased torque and a host of new features. But some things never change: the 4JH4-HTE includes the famous built-in Yanmar durability and reliability.
